Annual Index—Vol. XXIX, 1952

Subjects

A

Acetaldehyde, from autoxidized methyl linoleate, 633
  from autoxidized soybean oil, 372
Acetic acid, physical properties of, and esters, 313
Aceto'earin, plasticity of aceto derivatives, 11
Adrenal lipids, spectrophotometric analyses of isomerized, 456
Aphistrodon piscivorus, composition of oil from, 631
Alcohol, extraction rates with mixture with hexane, 213
Alkyl aryl sulfonates, analyses of, 576
Almond oil, tetrabromides from, 292
Altschul, A. M., promoted at S.R.R.L., 8-22
American Cyanamid Co., give fellowships, 6-46
A.S.T.M. revises drying oils methods, 3-36
Amides, preparation of, 18
Aniline and derivatives as antioxidants for carotene, 445
Antioxidants for carotene, 445
  comparison of, in edible fats, 1
  for lard and grease oils, 441
  pyrogallol derivatives as, for carotene, 51
Arachidonic acid, specific extinction coefficient of isomerized, 456
  spectrophotometric method of determination of, 279
Aspergillus flavus, activity of lipase from, 596
  niger, activity of lipase from, 596
  oryzae, activity of lipase from, 596
Audit Bureau of Circulations, 10-25
Autoxidation, volatile products from, of methyl linolenate, 633
Azobenzene as antioxidant for carotene, 445

B

Bailey, A. E., president's address, 1952, 6-36
  receives Hertz medal, 6-46
Beef brisket fat, composition of, 298
Beef, effects of cooking on fats in, 334
Beef fat, isolation of elaidic acid from, 44
Beilstein test, determination of trichloroethylene in oil with, 197
Bird continuous centrifuge, 511
Biscuits, effects of baking on fatty acids in, 378
Bleaching, effect of, on metal content of oil, 61
Book reviews: Acids and Bases, Their Quantitative Behavior, 11-20
  Active Carbon, 8-28
  Adsorption and Chromatography, 1-25
  Agricultural Chemistry, Vol. 2, Practical Applications, 3-33
  Biochemical Preparations, 10-25
  Boiler Feed Water Treatment, 3-32
  Chemistry and Technology of Food and Food Products, Vol. II, 1-24
    Vol. III, 5-32
  Color in Business, Science, and Industry, 8-28
  Crops in Peace and War, 2-21
  Encyclopedia of Chemical Reactions, 1-24
  Encyclopedia of Chemical Technology, 10-28
  Flow Measurements with Orifice Meters, 1-26
  Fluid Flow in Pipes, 8-27
  Fluorine and Its Compounds, 3-31
  Das Holzöl: Herkunft, Gewinnung, Handel, Eigenschaften, Chemie, Prüfung, und Verwendung, 2-24
  Industrial Heat Transfer, 8-28
  The Lipids, Vol. I., 3-31
  Marine Oils with Practical Reference to Those of Canada, 11-20
  Materiae Vegetabiles, 12-32
  Modern Chemical Processes, Vols. I and II, 9-22
  Modern Pyrometry, 4-22
  The Modern Soap and Detergent Industry, Vols. I and II, 3-32
  Nomography and Empirical Equations, 5-32
  Oil, Fat, and Soap, 5-33
  Organic Chemistry (Holleman), 7-26
  Organic Syntheses, Vol. XXXI, 2-21
  Paint and Varnish Production Manual, 1-25
  Phase Microscopy, 11-21
  Polarography, Vol. I, 9-22
    Vol. II, 12-32
  Properties of the Principal Fats, Fatty Oils, Waxes, Fatty Acids, and Their Salts, 12-32
  Properties of Tall Oil Resin Soap and Its Mixtures with Fatty Acid Soaps in Aqueous Solutions, 9-23
  Science French Course, 1-24
  Statistical Methods for Chemists, 2-24
  Technical Cooperation with Underdeveloped Countries, 9-22
  The Terpenes, 8-27
  Textbook of Organic Chemistry, 12-33
  The Thermodynamics of the Steady State, 11-20
  Ultraviolet Spectra of Aromatic Compounds, 1-26
Borates as builders, 529
Boron, trifluoride, catalyst for polymerizations, 331
Bread, isolation of monoglycerides from, 261
Brookfield viscometer used to measure foam consistency, 386
Buckwheat leaf meal fat, characteristics and composition of, 4
Builders, effects of, on foam consistency, 386
Builders for detergents, 529
Butter, effects of baking on fatty acids in, 378
Butterfat, preparation and properties of monoglycerides from, 271
Butylhydroxyanisole, antioxidant activities of, 1
Butyl oleate, synthesis of, by mold lipase, 596
Butyric acid, physical properties of, and esters, 313

C

Candy, antioxidants for, 428
  effects of baking on fatty acids, 378
Capric acid, dilatometric studies on, 149
  physical properties of, and esters, 313
Caproic acid, dilatometric studies on, 149
  physical properties of, and esters, 313
Carbonate as builders, 529
Carotene, antioxidants for, 51
  comparison of antioxidants for, 445
  determination of vitamin A in margarine containing, 321
Castor bean meal, separation of phytin from, 470
Castor beans, analytical methods for, 604
Castor oil, enzymatic hydrolysis of, 596
Castor pumice, analytical methods for, 604
C. digitala seed meal, separation of phytin from, 470
C. foetidissima seed meal, separation of phytin from, 470
C. palmata seed meal, separation of phytin from, 470
Central Soya's new process meal, 10-27
  development of, 11-28
Centrifugal acetone foots test applied to crude cottonseed oil, 408
  applied to soybean oil, 403
Coats, H. B., director of research, Blaw-Knox, Chemical Plants division, 2-25
Chickens, effects of cooking on fats in, 334
Chlorinated soybean oil, dechlorination of, 367
Chlorination of soybean oil, 401
Cincinnati convention, 1952, committee, 6-27
  exhibitors, 8-18
  fees, 11-18
  final program, 10-20
  general program, 9-18
  general report, 12-27
  official call, 9-19
  plans, 7-18
  technical report, 12-26
Citron seed oil, characteristics and composition of, 444
Citrullus vulgaris seed oil, characteristics and composition of, 444
Coconut oil, as soap raw materials, 482
  composition of, 500
  refining losses of, 177
  splitting equilibria of, 362
Color of cottonseed oil as affected by seed condition, 220
Column packing for stripping soybean oil, 22
Commentary: Abstract Section of J.A.O.C.S., 8-4
  Adult Education, 5-4
  Advertising, the Sales Catalyst, 11-4
  A.O.C.S. International, 1-4
  Annual Review of Literature on Fats, Oils, and Soap, 2-4
  British View of American Coating Industry, 10-4
  Cincinnati Welcomes You, 7-4
  National Paint, Varnish, and Lacquer Association, 4-4
  Northeast Oil Chemists' Society, 6-4
  The Oil Chemist and Food Technology, 9-4
  Publications on Fats and Oils, 12-4
  Texas Welcomes You, 3-4
Committees: advertising, report, 6-45
  appointments, 5-27, 7-25, 8-23
  glycerin, cooperative samples, 2-17, 9-20
  governing board, meeting, 12-22
    report, April 1952, 6-28
  Journal report, 1951-52, 6-46
  membership, report, 1951-52, 7-18
  referee board, report, 1951, 243
  seed and meal analysis, report, 1951-52, 604
  Smalley, announce check samples, 8-20
    report, 1951-52, 224
  uniform methods, report, 1951-52, 47
Conidendrols, antioxidant activities of, 1
  as antioxidants, 428
Consistometer, shortening, 591
Copper in soybean oil, 61
Copra, report on, 1-20
Corn oil, tetrabromides from, 292
  effects of deep frying on composition of, 378
Cotton industry, use of soaps and detergents in, 526
Cottonmouth moccasin fat, composition of, 631
Cottonseed, comparison of solvents for extraction of, 88
  costs of extraction of, 624
  determination of rate of extraction of, 56
  extraction rates with hexane, 213
  extraction rates with hexane-alcohol, 213
  high capacity expellers, 627
Cottonseed meal, desolventizing, 41
  effect of overcooking meats, 153
  glue for plywood, 16
Cottonseed oil, centrifugal acetone foots test for crude, 408
  comparison of antioxidants in, 1
  comparison of chemical and spectrophotometric analyses of, 461
  composition of, 14, 53, 461
  determination of fines in miscella, 71
  effect of seed condition on color of, 220
  effect of trichloroethylene on hydrogenation of, 28
  effect of winterization on composition and stability, 14
  enzymatic hydrolysis of, 596
  evaluation of antioxidants in, 428
  extraction of oil prior to removal of linters, 624
  improving stability of, 629
  I. V. and composition of, 53
  refining losses of, 177
  removal of gossypol from, by extraction
  re-refining at high rate of shear, 65
  spectrophotometric analyses of isomerized, 456
  spectrophotometric analysis of, 279
  sulfur contents of, 629
  winterization in 85-15 acetone-hexane, 455
  winterization of molecularly rearranged, 382
Cottonseed oil foots, as soap raw material, 482
Countercurrent distribution analysis of oxidation products of methyl linoleate, 447
Cox, C. H., emeritus member, 1-27
Crotonaldehyde from autoxidized soybean oil, 372
Crutcher, Readco mixer as, 506
Crystallization of animal fat glycerides, 441

D

Daniels, T. L., addresses seed crushers, 7-25
Dead-stop titrimetry, iodine numbers by, 126
Dechlorination with aqueous salt solutions, 367
DeNavarre, M. G., wins Society of Cosmetic Chemistry award, 1-30
Density of fatty acids and esters, 313
Deodorization, effect of, on metal content of oil, 61
  semi-continuous laboratory, 380
Desolventizing cottonseed meal, 41
Detergency, comparison of Terg-O-meter and Launder-Ometer test for, 110
  methods of evaluation of, 582
Detergents, builders for, 529
  determination of consistency of foams of, 386
  evaluation of, at consumer level, 498
  from sulfated N-alkyl-D-gluconamide, 202
  industrial uses of synthetic, 526
  performance characteristics of, 561
Deter-Meter, 582
Dibasic acids, preparation and use of, 495
Diet, recovery of monoglycerides from, 271
Dilatometer, studies on fatty acids and glycerides with, 149
  studies of pure triglycerides with, 128
Dilatometry of alpha and beta tung oil, 452
  of mixed triglycerides, 128
  of pure fatty acids and glycerides, 149
  of pure triglycerides, 128
  relation of, to chain length, 149
Dilaurin, dilatometric studies on, 149
Dimyristin, dilatometric studies on, 149
Diphenylamine as antioxidants for carotene, 445
Dishwashing, use of builders in, 529
Disodium α-sulfopalmitate, preparation and properties of, 198
Distillation, commercial, of fatty acids, 490
  continuous of, glycerin, 511
  improvements in continuous, 81
Di-*tert*-butyl-*p*-cresol, antioxidant activities of, 1
Docosapentaenoic acid, specific extinction coefficient of isomerized, 456
Dopp mixer for soap crutching, 506
Doughnuts, fat absorptions in frying, 616
Drycleaning, effects of frictional electricity on greying of textiles during, 218

Drying oils, comments on heat bodying, 420
containing methyl alpha-D-glucoside, 467
from dechlorinated chlorinated soybean oil, 367
Dupuis, R. N., goes to Philip Morris, 4-20

E

Earhart, K. A., manufacturing manager, Plaskon, 11-22
Eicosapentaenoic acid, specific extinction coefficient of isomerized, 456
Emeritus members, Perry and Cox, 1-27
Hulbert and Moor, 2-22
Engineers, shortage of, 8-32
Enzymes, activity of lipase from various molds, 596
effect of heat on, in soybean meal, 619
Esterase, photometric determination of, 409
Ethyl esters, physical properties of pure, 313
Ethyl gallate, as antioxidant for carotene, 51
Evaporators, single and double effect, 511
Ewing, F. J., director of research at Filtrol, 11-24
Expeller, high capacity operation of, 627
Extraction, apparatus for determination of rates of, 56
comparison of solvents for, 88
determination of fines in miscellas from, 71
evaluation of rate measurements, 421
Extraction rates, effects of variables on, 421
with hexane and hexane-alcohols, 213
Extractor, dual-purpose laboratory, 300
laboratory batch, 213

F

Fat splitting, industrial, 362
process, 490
Fats, changes in, during doughnut frying, 616
effect of cooking meats and poultry on, 334
reaction of, with ammonia and amides, 18
synthetic detergents from, 198
Fatty acid amides, preparation of, 18
Fatty acids, classifications of, 12-37
commercial distillation of, 490
commercial uses of, 495
continuous distillation of, 81
hydrogenation of, 495
in detergent manufacturing, 495
in paints, varnishes, and plastics, 495
oxidation of, 97
physical properties of pure, 313
polymerization of, with boron trifluoride and hydrogen fluoride, 331
sulfonation of, 198
Flaxseed meal, separation of phytin from, 470
Foam, measurement of consistency, 386
Foam consistometer, 386
Foots tests, comparison of, in linseed oil, 97
Frying fats, commercial, problems of, 616

G

Gallic acid, as antioxidant for carotene, 51
Ginger snaps, effects of baking on fatty acid in, 378
Glycerin, deionization of sweetwater, 133
ion exchange refining, 511
production and refining, 511
purification of, by ion exchange, 318
uses of, 511
Glycerolysis of fats, in aromatic nitrogenous bases, 59
Goss, W. H., receives civilian award, 4-28
Gossypol, removal of, from cottonseed by extraction, 339
Governing board, 1952, picture of, 6-28
Grease, as soap raw material, 482
refining for soap, 485
solvent crystallization of, 441
stabilized, 441
Gum guaiac, antioxidant activities of, 1

H

Harris, J. P., opens business, 1-18
Heat of entropy of *alpha* and *beta* tung oils, 155
Heat of fusion, of *alpha* and *beta* tung oils, 155
Hexanol from autoxidized soybean oil, 372
Honorary member, Roschen, 3-30
Houston Convention, 1952, call to, 3-25
committee, 1-28, 6-29
early plans, 2-16
exhibitors, 6-16
final program, 4-18
general report, 6-31
golf winners, 6-32
ladies' program, 6-33
pictures, 6-29, 6-34
program, 3-22
technical report of, 6-28
Hulbert, G. C., emeritus member, 2-22
Hydrogen fluoride, catalyst for polymerizations, 331
Hydrogenation, determination of unsaturation of tung oil by, 227
effect of, on composition of linseed oil, 601
effect of trichloroethylene on, 28
of soapstocks, 485
of soybean oil under various conditions, 347
Hydrolysis, activity of various lipases in, 596
of commercial fats, 490
of fats industrially, 362
Hydroquinone, antioxidant activities of, 1
Hydroxides, as builders, 529

I

Icterus swine, composition of fat from, 161
Illinois to offer fat and oil courses, 5-34
Infra-red analyses of oxidation products of methyl linoleate, 447
Infra-red spectra of methyl linoleate isomers, 229
of mixed monoglycerides, 261
of monoglycerides, 271
Inositol, preparation of, from oilseed flours, 470
Interfacial tension of fatty acids and esters, 313
Inter-Society Color Council, Thomson reports as A.O.C.S. delegate to, 6-27
Inventory control in soap industry, 586
Iodine numbers by dead-stop titrimetry, 126
Ion exchange purification of sweetwater by, 133
purification of glycerin, 318
refining glycerin, 511
Ittner glycerin still, 511

J

Joyner, N. T., goes to Girdler, 1-29

K

Kaufmann, H. P., visits U. S., 10-25
Konen, J. C., assistant vice president at Archer-Daniels-Midland, 8-30

L

Lamb, effects of cooking on fats in, 334
Lanolin, iodine number of, 414
Lard, comparison of antioxidants in, 1, 428
composition of, from normal and icterus swine, 161
effects of baking on fatty acids in, 378
effects of deep frying on composition of, 378
isolation of monoglycerides from, 261
solvent crystallization of, 441
spectrophotometric analyses of isomerized, 456
use of, in frying doughnuts, 616
Lard oil, improved, 441
Laundering, use of builders in, 529
Launder-Ometer test, comparison with Terg-O-Tometer test, 110
Laundries, use of soaps and detergents in, 526
Lauric acid, dilatometric studies on, 149
physical properties of, and esters, 313
Lauryl gallate, as antioxidant for carotene, 51
Law, T. C., honored, 8-29
Lecithin, antioxidant activities of, 1
carbohydrates in soybean, 293
effect of, on determination of vitamin A, 174
Linoleic acid, determination of, by tetrabromides in heptane and pentane, 292
infrared and ultraviolet spectra of, 229
Smit's isomer and 8t,10t-octadecadienoic acid, 110
spectrophotometric method of determination of, 279
Linolenic acid, specific extinction coefficient of isomerized, 456
Linseed oil, composition of hydrogenated, 601
determination of non-oil constituents in, 97
foots test comparison, 97
isomerization of, 601
spectrophotometric analyses of isomerized, 456
spectrophotometric analysis of, 279
Linters, recovery of, after extraction of oil, 624
Lipase, activity of, from various molds, 596
Literature review, 1951, 136, 180
Local sections, amendment of by-laws to allow, 12-22
Lowry, C. D. Jr., forms new firm, 1-26
Lutton, E. S., new abstracts editor, 9-19

M

Margarine, determination of vitamin A in colored, 321
determination of vitamin A in colored, containing carotene, 321
effect of lecithin on determination of vitamin A in, 174
nutritive properties of synthetic vitamin A in, 151
Markley, K. S., goes to Institute of Inter-American Affairs, 3-30
receives A.C.S. award, 2-19
Mass spectrometer, 576
Menhaden oil, Solexol fractionation of, 235
Metals in soybean oil, 61
Methods revisions, 1951, 3-30
Methyl alpha-D-glucoside drying oils, 467
arachidonate, effect of alkali concentration on conjugation of, 456
dilinoleate, polymerization of styrene with, 7
docosapentaenoate, effect of alkali concentration on conjugation of, 456
eicosapentaenoate, effect of alkali concentration on conjugation of, 456
elaidate, polymerization of styrene with, 7
esters, physical properties of pure, 313
linoleate, effect of alkali concentration on conjugation of, 456
linoleate hydroperoxide, preparation of, 244
linoleate, oxidation products of, 447
linoleate, spectra of isomers, 229
linolenate, volatile products from autoxidation of, 633
9,10-dihydroxystearate, polymerization of styrene with, 7
9,10-epoxystearate, polymerization of styrene with, 7
9,12-linoleate, polymerization of styrene with, 7
oleate, polymerization of styrene with, 7
oleate, preparation from olive oil with urea, 614
ricinoleate, polymerization of styrene with, 7
stearate, polymerization of styrene with, 7
t, t-9, 12 linoleate, polymerization of styrene with, 7
12-hydroxystearate, polymerization of styrene with, 7
12-ketostearate, polymerization of styrene with, 7
Milner, R. T., receives recognition, 5-23
Mobilometer used to measure foam consistency, 386
Molds, activity of lipases from various, 596
vitamin content of lipolytic, 596
Monocaprylin, dilatometric studies on, 149
Monoglycerides, infrared spectra of, 261, 271
isolation of, from intestines of humans, 271
isolation of, from lard and bread, 261
preparation of, from butter fat, 271
preparation of, in nitrogenous bases, 59
Monolaurin, dilatometric studies on, 149
Monomyristin, dilatometric studies on, 149
Monoolein, dilatometric studies on, 149
Monostearin, dilatometric studies on, 149
plasticity of acetic derivatives of, 11
Moor, W. C., emeritus member, 2-22
Moore, N. H., represents De Laval Separator company, 5-24
Mustard oil, enzymatic hydrolysis of, 596
Myristic acid, dilatometric studies on, 149
physical properties of, and esters, 313
Mysore seed oil, enzymatic hydrolysis of, 596

N

Naphthylamine as antioxidant for carotene, 445
N.C.O.C. elects officers, 4-22
meet May 23, 7-26
meet November 14, 10-22
N.C.P.A. fellows, 3-33
NDGA, antioxidant activities of, 1
N.E.O.C.S., Embree speaks to, on October 7, 11-26
Lawrence speaks, 1-26
meets April 17, 4-29
Smith speaks at, 5-34
White to speak, 2-20
N-2-ethylhexyl-D-gluconamide, preparation and properties of, 202
N-hexane, extraction rates with, 213
Nonylphenol, addition of ethylene oxide to, 357
Norconidendrin, antioxidant activities of, 1

O

Obituary: Chapin, E. H., 3-40
Hartley, M. L., 12-37
Palmer, M. H., 9-20
Paquin, Felix, 6-40
8t-10t-octadecadienoic acid and Smit's isomer, 114
Octyl gallate, as antioxidant for oils, 629
Odeen, Henry, resigns from Trendex, 11-18
Officers, candidates for, 3-26
elected for 1952-53, 5-22
Ohio State offers fellowships, 4-24
Oil, determination of, in soybeans by rapid method, 258
determination of rate of extraction of, 56
sulfonation of, 556
Oil seed flours, separation of phytin from, 470
Oilseed industry, trends in, 253
Oils, rapid test for trichloroethylene in, 197
stabilization of, with sulfur, 629
Okraseed oil, determination of fines in miscella, 71
Oleic acid, melting points and solubilities of ternary mixtures containing, 94
preparation of, from animal fats, 431
preparation of, from olive oil with urea, 614
Oleodipalmitin, dilatometric studies on, 128
Oleodistearin, dilatometric studies on, 128
Oleo oil, isolation of elaidic acid from, 44
Olive oil, preparation of oleic acid from, with urea, 614
tetrabromides from, 292

Oxidation, of methyl linoleate, 447
volatile products from, of soybean oil, 372

P

Packaging soaps, 535, 541
Paints, from dechlorinated chlorinated soybean oil, 367
Palm oil fatty acids, solubility of, in methanol, 94
improving stability of, 629
splitting equilibria of, 362
sulfur contents of, 629
Palmitic acid, dilatometric studies on, 149
physical properties of, and esters, 313
Palmitodistearin, dilatometric studies on, 128
Peanut kernels, removal of skins from, 48
Peanut meal, determination of skin content of, 370
Peanut meal glue for plywood, 16
Peanut meal, separation of phytin from, 470
Peanut oil, determination of fines in miscella, 71
enzymatic hydrolysis of, 596
evaluation of antioxidants in, 428
refining losses of, 177
solvent winterization of molecularly rearranged, 382
tetrabromides from, 292
Peanut protein determination of skin pigment, contents of, 370
Peat wax, effects of heat on crude, 611
Penicill ium chrysogenus, activity of lipase from, 596
α-pentenal, from autoxidized methyl linolenate, 633
α-pentenal from autoxidized soybean oil, 372
Peptization of soybean meal protein, 309
Perilla oil, spectrophotometric analysis of, 279
Perkin-Elmer Corporation opens new laboratory, 6-23
Perry, R. W., emeritus member, 1-27
Phenothiazine, as antioxidant for carotene, 445
Phenylenediamine as antioxidant for carotene, 445
Phosphates as builders, 529
Phosphatides, fractionation of soybean oil, in isopropyl alcohol, 345
rapid determination of, in soybean oil, 403
Phytin, preparation of, from oil-seed flours, 470
Pie crust, effects of baking on fatty acids in, 378
Pilchard stand oil, characteristics of, 287
Pluronic, synthesis and properties of, 240
Plywood, cottonseed and peanut meal glues for, 16
Polymerized oil, pilchard stand oil, 287
Polyoxyethylated alkylphenols, properties of, 357
Polyunsaturated acids, effect of alkali concentration on conjugation of, 456
Polyunsaturated fatty acids, standardization of spectrophotometric method for, 279
Poppyseed oil, tetrabromides from, 292
Pork, effects of cooking on fats in, 334
President's address, 1952, Bailey, A. E., 6-36
Procter and Gamble opens new laboratory, 10-26
Propionaldehyde, from autoxidized methyl linolenate, 633
from autoxidized soybean oil, 372
Propyl gallate, antioxidant activities of, 1
as antioxidant for carotene, 51
Protein denaturation in soybean meal, 170
Protein, effects of heat on soybean, 619
peptization of soybean meal, 309
Pyrogallol derivatives as antioxidants for carotene, 51

Q

Quinoline as antioxidant for carotene, 445

R

Raffinose, in soybean lecithin, 293
Rapeseed oil, refining losses of, 177
sulfur contents of, 629
Readco mixer, as soap crutcher, 506
Referee chemists, 1952-53, 7-20
Refining, effect of, on metal content of oil, 61
effects of high rates of shear on, 65
rapid determination of, in soybean oil, 403
Wesson loss as measure of degree of, 177
Refining loss, comparison of methods for, 403
Reflectometer, 582
Refractive index, of fatty acids and esters, 313
Rhizopus, activity of lipase from, 596
Rice bran oil, determination of fines in miscella, 71
Roschen, H. L., honorary member, 3-30
Rosin acids, determination of, in fatty acids, 342
Rubber, stabilizer for synthetic, 428
industry, use of soaps and detergents in, 526

S

Safflower oil, enzymatic hydrolysis of, 596
Saponification kettle, 500
Secretary's report, 6-39
Sesame oil, enzymatic hydrolysis of, 596
tetrabromides from, 292
Sesamol, antioxidant activities of, 1
Shampoos, 546
Shark liver oil, composition of Indian, 593
Sharples centrifugal soap process, 500
Sharples Super D-Hydrator, 511
Shea butter fatty acids, solubility of, in methanol, 94
Short course, 1952, announced, 1-19
complete program, 5-20
foreword to lectures, 481
general, 3-28
general program, 2-16
lectures, 481
pictures, 10-25
publicity, 4-19
registration list, 6-26, 7-19
report on, 8-19
welcome, 481
Short course, 1953, tentative plans, 12-40
Shortening, comparison of antioxidants in hydrogenated, 1
consistometer, 591
dilatometric studies on, 128
evaluation of antioxidants in, 428
Silicates, as builders, 529
Silk industry, use of soaps and detergents in, 526
Smalley awards, story behind the, 6-25
Smith, L. B., to Tufts College, 11-18
Smits' linoleic acid, comparison with 81, 10c-octadecadienoic acid, 114
Snake oil, composition of cottonmouth moccasin, 631
Snell, F. D., receives A.I.C. award, 5-36
Soap, analyses of, 573
and health and morale, 564
blue mottled bar, 546
composition of, with syndets, 552
continuous neutralization of fatty acids for making, 506
cracking of milled, 521
deposition of lime during washing with, 158
determination of consistency of foams of, 386
determination of relative wear of bar, 412
drycleaning, 546
dynamics of industry, 564
evaluation of, at consumer level, 498
finishing, 521
for synthetic rubber, 546
for textiles, 546
for wire drawing, 546
from fatty acids, 506
good qualities of, 535
in shampoos, 546
in toothpastes, 546
in water-insoluble, 546
industrial uses of, 526
inventory control in industry, 586
little known uses of, 564
made by saponification, 500
mechanics', 546
medicated, 546
milling, 521
naphtha, 546
packaging of, 535, 541
per capita consumption of, 564
performance characteristics of, 561
performance desiderata of, 535
phase diagrams of, 500
photomicrographs of spray drying of, 521
properties of bar, 535
properties of chip, 535
properties of liquid, 535
properties of paste, 535
properties of powdered, 535
raw materials for, 482
salt water, 546
Sharples centrifugal process for making, 500
shaving, 546
solubilities of sodium and potassium, 506
solubility of individual, 482
specialty, 546
transparent bar, 546
Soap stocks, pretreatment of, for soap manufacturing, 485
Sodium oleyl sulfate, preparation and properties of, 198
Soil removal, comparison of tests for, 110
Solexol fractionation of menhaden oil, 235
process, 485
Solvents, comparison of, for extraction of cottonseed, 88
Soybean, effects of baking on fatty acids in, 378
extraction rates with hexane, 213
extraction rates with hexane-alcohol, 213
rapid determination of oil in, 258
lecithin, carbohydrate constituents of, 293
Soybean meal, characteristics of, at various processing stages, 619
denaturation of protein in, 170
development of Central New Process, 10-27, 11-28
effects of heat on enzymes in, 619
effects of heat on extracted, 619
peptization of protein in, 309
separation of phytin from, 470
Soybean oil, centrifugal acetone foots test for crude, 403
chlorination of, with ter-butyl hypochlorite, 401
column packing for stripping, 22
dechlorination of chlorinated, 367
effect of hydrogenation conditions on properties of, 347
effect of trichloroethylene on hydrogenation of, 28
effects of processing on metals in, 61
fractionation of phosphatides from, 345
improving stability of, 629
polymerization of fatty acids from, 331
properties of dechlorinated, 367
refining losses of, 177
spectrophotometric analyses of isomerized, 456
spectrophotometric analysis of, 279
sulfur contents of, 629
volatile products from autoxidized, 372
Soybean oil fatty acids, determination of rosin acids in, 342
Soybean oil foots, as soap raw material, 482
Specific heats of *alpha* and *beta* tung oils, 155
Spectrometer, mass, 576
Spectrophotometric analyses of alkali isomerized oil, 456, 461
Splitting, acid, 490
Colgate-Emery process of fat, 490
enzymatic, 490
industrial, of fats, 362
Stachyose, in soybean lecithin, 293
Stand oil, characteristics of, pilchard, 287
Stearic acid, dilatometric studies on, 149
melting point and solubilities of ternary mixtures containing, 94
physical properties of, and esters, 313
Stearodiolein, dilatometric studies on, 128
Stearodipalmitin, dilatometric studies on, 128
Stillingia seed meal, separation of phytin from, 470
Styrene, polymerization of, in presence of methyl esters, 7
Sucrose, in soybean lecithin, 293
Sulfated alcohols, analyses of, 576
Sulfated N-alkyl-D-gluconamides, detergents and surfactants from, 202
Sulfation of alkyl gluconamides, 202
Sulfation, processes for, 556
of fatty acids, 198
processes for, 556
Sulfur, content in oils, 629
stabilization of oils with, 629
Sunflower oil, refining losses of, 177
Surface tension of fatty acids and esters, 313
Surfactants, effect of, on deposition of lime soaps, 158
from sulfated N-alkyl-D-gluconamides, 202
polyoxyethylated alkylphenols as, 357
Sweetwater, deionization of, 133
Syndets, analyses of, 576
composition with soaps, 552
raw materials for, 554

T

Tall oil, fatty acids, determination of rosin acids in, 342
Tallow, as soap raw material, 482
composition of, 298, 500
glyceride composition of, 109
refining for soap, 485
solvent crystallization of, 441
spectrophotometric analysis of, 279
splitting equilibria of, 362
Tallow fatty acids, solubility of, in methanol, 94
Tannic acid, as antioxidant for carotene, 51
Temperature standards, 7-27
Terg-O-Tometer, 582
comparison with Launder-Ometer test, 110
Tetrabromide determination of linoleic acid, 292
Textile industry, use of soaps and detergents in, 526
Textiles, effect of frictional electricity during drycleaning on greying of, 218
greying of, in drycleaning, 218
Titrimetry, iodine numbers by dead-stop, 126
Tobacco seed oil, spectrophotometric analysis of, 279
tetrabromides from, 292
Tocopherols, antioxidant activities of, 1
Toothpastes, 546
Transesterification, in aromatic nitrogenous bases, 59
Treasurer's report, 6-40
Trichloroethylene, effect of, on hydrogenation, 28
rapid test for, 197
sensitive detector for, 41
Triglycerides, dilatometric studies on, 128
synthesis of symmetrical, 169
Trilaurin, dilatometric studies on, 149
Trimyristin, dilatometric studies on, 149
Triolein, dilatometric studies on, 128
Tripalmitin, dilatometric studies on, 128, 149
Tristearin, dilatometric studies on, 128, 149
Tung fruit, analytical methods for, 604
determination of moisture in, 425
analytical methods for, 604

Tung oil, determination of unsaturation by hydrogenation, 227
dilatometry and polymorphism of *alpha* and *beta*, 452
specific heats, heats of fusion, and entropy of *alpha and beta*, 155
Turkey, effects of cooking on fats in, 334

U

Unsaturation, determination of, by hydrogenation, 227
determination of, with hypochlorous acid, 97
Urea, as antioxidants for carotene, 445
Urea complexes, preparation of oleic acid by, 431
preparation of oleic acid from olive oil by means of, 614

V

Varnishes, containing methyl *alpha*-D-glucoside, 467
Viscosity of fatty acids and esters, 313
Vitamin A, collaborative assays of concentrates of, 104
determination of, in uncolored margarine, 121
effect of lecithin on determination of, 174
nutritive properties of synthetic, in margarine, 151
Vitamin contents of lipolytic molds, 596

W

Washing, deposition of lime soap on fabrics during, 158
Wax, peat, effect of heat on, 611
aliphatic alcohols of wool, 416
Wesson loss as measure of degree of refining, 177
Winterization of cottonseed oil, in 85-15 acetone-hexane, 455
effect of, on cottonseed oil, 14
of molecularly rearranged oils in solvents, 332
Wool industry, use of soaps and detergents in, 526

(Numbering system: page number only for technical article, issue and page number for news article, editorial, or book review.)
